# Standard Spec – Key 2022 Revisions

- 104.6.1.2 – Clarify payment and add temporary traffic control zone devices defined in the WMUTCD
- 108.1.1 – Require sublet request for all DBE work and material or supply purchase at any tier
- 109.5 – Redefined department payment for eliminated work
- 109.6.3.3 (effective Dec 2020 ASP 6) – Delete the 5% routine retainage that began at 75% project completion

# Standard Spec – Key 2022 Revisions (cont.)

- 301.5 – Cap 3X pay for EBS and pay for backfill at contract unit price
- 305.4, 311.4, 312.4 – Specific volume-weight conversion factor for Base Aggregate, Breaker Run, and Select Crushed
- 501 – Extensive rewrite and reorganization of concrete material requirements

# Current ASP 6

- 415.3.16 Tolerance in Pavement Thickness
- 415.5.2 Adjusting Pay for Thickness
- 460.2.6 Recovered Asphaltic Binders
- 501.2.6 Water
- 501.2.6.2 Requirements
- 501.3.2.4.2 Air Entrainment
- 501.3.7.1 Slump
- 531.5 Payment
- 642.2.2.1 General
- 701.3.1 General

# Current ASP 6

- 710.2 Small Quantities
- 710.4 Concrete Mixes
- 710.5.5 Strength
- 710.5.6 Aggregate Testing
- 710.5.7 Corrective Action
- 715.3.1.1 General
- 715.3.1.2.3 Lots by Cubic Yard
- 715.3.2 Strength Evaluation
- 715.3.3 Aggregate
- 715.5 Payment

# CCAW Updates

- Membership
  - FHWA (1)
  - WisDOT (5)
  - WTBA (5)
- Purpose
  - Identify and evaluate specific improvement opportunities for Part 1 of WisDOT's Standard Specification for Highway and Structure Construction.
- Ongoing special work group topics:
  - Partial acceptance / substantial completion / winter suspension

# 2022 Standards Training

- Training anticipated to be virtual
- Look for announcements via e-mail distribution lists
